PROFILE

M.Sc. graduate in Artificial Intelligence with practical experience in Machine Learning, Computer Vision, and Python development. Experienced in analyzing datasets, building simple models, and applying AI concepts to real-world problems. Currently strengthening software engineering skills (C, Linux, Git) at 42 Heilbronn. Motivated, reliable, and eager to gain hands-on experience in a working student role.

TECHNICAL SKILLS

- Python (Data Analysis, Machine Learning basics)
- OpenCV (Image Processing, Feature Extraction)
- Pandas, NumPy, Scikit-learn
- C (42 Program), Git, GitHub, Linux
- Problem solving and debugging

PROJECTS

- OpenCV Image Processing Project

Implemented an image processing pipeline including grayscale conversion, thresholding, and edge detection to analyze visual data.

- SpaceX Prediction Project

Built a machine learning model using structured data to predict outcomes and performed basic data analysis.

- Libft (C Programming – 42)

Developed a custom C library focusing on memory management, pointers, and clean code principles.

EDUCATION

42 Heilbronn – Software Engineering (2025 – Present)

M.Sc. Artificial Intelligence – Amirkabir University

B.Sc. Physics – University of Tehran

EXPERIENCE

- Programmer – Amir and Daraee Company (2013–2025)

Applied Python and data analysis techniques in technical projects, focusing on problem solving and implementation.

- Physics & Robotics Instructor (2007–2013)

Taught scientific concepts and supervised technical projects, strengthening communication and analytical skills.

LANGUAGES

German (B2) | English (Fluent) | Persian (Native)

STRENGTHS

Analytical Thinking | Problem Solving | Teamwork | Fast Learning | Initiative
